

Team Involvement in Demonstration

Date	03 October 2026
Team ID	6ab7f31f8c7c66e70672939b
Project Name	EduGenie – AI Powered Learning Assistant
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the participation and documented project contributions of each team member during the project demonstration. The team members contributed to feature development, AI integration, testing, integration, documentation and final demo preparation.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Mohammed Yasin K	Integration, Testing & Documentation	Project Integration and Final Demo Readiness	Contributed to frontend/module integration, functional testing, bug fixing, documentation and final demo preparation.	Active
2	Gokulnath S	AI Integration & Feature Development	Concept Explanation, Q&A and AI Integration	Contributed to Gemini API integration, Concept Explanation, Question Answering and related feature development.	Active
3	Mathavan A	Feature Development & Learning Functions	Quiz, Summarization and Learning Path	Contributed to Quiz Generation, Summarization, Learning Path and related feature implementation and integration.	Active
4	Jayapriyan J	Feature Development & Integration	Concept Explanation, Q&A and System Integration	Contributed to Concept Explanation, Question Answering, Learning Path and integration activities.	Active
5	Dinesh Kumar M	Testing & Documentation	Functional Testing and Final Documentation	Contributed to functional testing, bug fixing, documentation and final demo-ready preparation.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Not specifically identified in the Final Report
Overall Team Coordination Rating (1-5)	Not specified in the Final Report
Any issues during demo	HTTP 429 rate-limit warnings from the Gemini API were observed during the demonstration.
How issues were resolved	Temporary API errors were handled using retry logic and fallback model handling. The demonstration functions eventually returned successful HTTP 200 responses.
