

Project Design Phase Problem – Solution Fit Template

Date	15 February 2025
Team ID	6ab7f31f8c7c66e70672939b
Project Name	EduGenie – Google Gemini Powered Learning Assistant
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- Solve complex problems in a way that fits the state of your customers.
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- Sharpen your communication and marketing strategy with the right triggers and messaging.
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- Understand the existing situation in order to improve it for your target group.

Template:

Define CS, fit into CC	1. CUSTOMER SEGMENT(S) CS Who are your customers? - School students - College students - Self-learners - Beginners learning new technical subjects - Students preparing for exams - Educational institutions and content platforms Primary customer: Students and self-learners who need simple, personalized academic support.	6. CUSTOMER CONSTRAINTS CC - Limited time for studying - Limited budget for educational resources - Different levels of prior knowledge - Limited access to powerful hardware - Need for simple, easy-to-understand content - Internet/device availability may vary Design fit: EduGenie uses a lightweight web interface and cloud-based AI; the project document notes accessibility on devices such as Mac M1 with minimal hardware resources.	5. AVAILABLE SOLUTIONS AS What do students currently use? Textbooks, Google/search engines, YouTube tutorials, online educational websites, notes/PDFs, traditional teachers/tutors, general AI chatbots. Limitations - Information is scattered across different sources - Students must search multiple resources - Long explanations are hard for beginners - No single lightweight interface combining explanation, Q&A, quizzes, summarization and learning recommendations	Explore AS, differentiate												
	2. JOBS-TO-BE-DONE / PROBLEMS J&P What problems do they face? - Difficulty understanding complex topics - Spending too much time searching for explanations - Long study materials are difficult to revise - Need practice questions to test understanding - Difficulty creating a structured learning path from beginner to advanced - Generic content may not match the learner's level	9. PROBLEM ROOT CAUSE RC The main root cause is that educational information is often available but not sufficiently simplified, personalized, organized and interactive for each learner's immediate need. Students may have access to large amounts of content but still struggle to understand concepts, revise efficiently, assess their knowledge, and determine what to learn next.	7. BEHAVIOUR BE What do students do when they face the problem? - Search Google for explanations - Watch YouTube videos - Read textbooks and PDFs - Ask teachers or friends - Use AI tools to ask questions - Make notes for revision - Search for courses/tutorials when learning a new topic		Focus on J&P, tap into BE, understand RC											
	3. TRIGGERS TR - Difficult or unfamiliar topic - Upcoming exams or assignments - Need for quick revision - Confusion while studying independently - Wanting to test knowledge through quizzes - Starting to learn a new subject or technology	10. YOUR SOLUTION - EDUGENIE SL EduGenie is a lightweight AI-powered learning assistant that brings multiple learning activities into one platform, powered by Google Gemini. How it fits the canvas Explanation & Q&A: simplifies complex topics at the learner's level (fixes J&P, RC) Summarization: condenses long material for quick revision Quizzes: interactive practice to test knowledge Learning recommendations: a structured path from beginner to advanced Lightweight web + cloud AI: works within limited hardware, budget and time (fits CC) One interface replacing scattered textbooks, videos, search and generic chatbots (differentiates from AS)	8.1 ONLINE CH - Google/search engines - YouTube - Educational websites - AI learning tools - Online courses - Digital notes/PDFs			Extract online & offline CH or BE										
4. EMOTIONS: BEFORE / AFTER EM <table><thead><tr><th>Before EduGenie</th><th>After EduGenie</th></tr></thead><tbody><tr><td>Confused</td><td>→ Clear</td></tr><tr><td>Overwhelmed</td><td>→ More confident</td></tr><tr><td>Difficulty understanding</td><td>→ Simplified understanding</td></tr><tr><td>Unsure what to study next</td><td>→ Structured learning path</td></tr><tr><td>Revision takes more time</td><td>→ Quick revision</td></tr><tr><td>Difficult to test knowledge</td><td>→ Interactive quiz practice</td></tr></tbody></table>	Before EduGenie	After EduGenie	Confused	→ Clear			Overwhelmed	→ More confident	Difficulty understanding	→ Simplified understanding	Unsure what to study next	→ Structured learning path	Revision takes more time	→ Quick revision	Difficult to test knowledge	→ Interactive quiz practice
Before EduGenie	After EduGenie															
Confused	→ Clear															
Overwhelmed	→ More confident															
Difficulty understanding	→ Simplified understanding															
Unsure what to study next	→ Structured learning path															
Revision takes more time	→ Quick revision															
Difficult to test knowledge	→ Interactive quiz practice
